Work Experience

The Adecco Group, R.potential.ai
San Francisco, CA
Aug 2026 - Present

Sr. AI Product Design Engineer

- Led end-to-end design and full-stack development of the enterprise AI platform, independently driving high-impact launches for clients including Microsoft and Salesforce, with data-visualization-heavy enterprise reports.
- Designed complex AI agent orchestration workflows around emerging agentic capabilities, informed by in-depth competitor analysis of AI products.
- Defined reusable AIUX interaction patterns and UI components and codified them in a design system, then built an AI harness that reviews component adoption, a proprietary method for keeping patterns consistent at scale.
- As an AI-native design engineer, turned design concepts into live products with Claude Code, shipping thousands of PRs on Github.

Supernova Technology
Chicago, IL
Jul 2025 - Jul 2026

Product Design Engineer

- Designed and scaled the **AI-powered FinTech SaaS B2B** platforms for **enterprise solutions**, serving **200K+** users and supporting **$400B** in pledged collateral, reducing loan application, underwriting and servicing costs by **80%**, and enabling less than **10** minute loan origination.
- Leveraged **AI-assisted vibe coding process with Claude Code** to accelerate design ideations and MVP delivery, improved efficiency by 20%, accelerated deployment cycles, and shared **LLMs and Machine Learning** research with the team and community.
- Delivered end-to-end product design for complex **AI Agent** lending workflows for top-tier **financial** institutions, including **Morgan Stanley, TD Bank, BNY, Charles Schwab**, incorporating client feedback through rapid prototyping and design iterations.
- Owned the full product lifecycle for **AI Underwriting** with functions of **AI Summary Checklist, AI Chatbot, Document data extraction,** from information architecture, wireframes to high-fidelity prototypes, in close cross-functional collaboration with **PMs, stakeholders, and engineers**.
- Managed **design system with AI,** creating **120+ components Claude design** library, reusable UI patterns and documentation that increased design-to-development efficiency and ensured visual consistency across all platforms.

Harvard University
Cambridge, MA
May 2023 - Jun 2025

Fellow, Product Designer

- Created immersive learning internal tools and platforms, *Digital Temple*, integrating HCI, gamification, and multimodal learning, driving **2.1 M** digital user engagements; Designed **300+** hi-fidelity prototypes and launched **10+** key features.
- Produced **200+** digital and print pixel-perfect deliverables; *The Art of Life* immersive digital exhibition gained **IF Design Award**.
- Led and facilitated **40+ usability tests, user research, and 5 design iterations; cross-functional teamwork** with product managers, engineers, and researchers to synthesize qualitative data insights and translate user feedback into actionable product improvements.
- **Mentored 15+ peers** and junior designers through **20+ Figma workshops** on design thinking. Organized design conferences and managed complex team projects. Excellent problem-solving skills to discover and tackle them in fast-paced ambiguous environments.

Google
New York, NY
Feb 2023 - Apr 2023

UX Designer Apprenticeship

- Recreated *Health App* by integrating **Google Maps + Calendar** functions to streamline complex workflows of the digital medical records, events, and appointment scheduling, enhancing **accessibility** with WCAG compliance, color contrast, and keyboard navigation.
- Identified patients' needs, health problems by **10+ user interviews, 20+ competitive analysis** and **200+ user surveys**, generating user-centered design solutions with **60 user flows**, wireframes, and high-fidelity prototypes. Presented design process and UX methodology to Google UX team.
- Documented **design system**, ensuring guidelines, UIUX specs are consistent, accessible, and scalable, with meticulous attention to detail.

Education

Columbia University
New York, NY
Sept 2021 - May 2023

Master's Degree. Master of Arts in Creative Technologies (Interaction Design, Digital Media) 4.0 GPA (Top 1%)

Politecnico di Milano
Milan, Italy
Sept 2016 - Jul 2020

Bachelor's Degree. Bachelor of Science in Design (Human Computer Interaction, UIUX)

Tsinghua University, Sotheby's Institute of Arts
New York, NY
Sept 2020 - May 2021

Master's Degree. Master of Arts in Art Administration 4.0 GPA (Top 1%)

AI Specific Skills
Vibe Coding, Claude Code, LLM Integration, Task Automation UX, AI Agent Workflow, Conversational AI, AI Visual Design, Computer Vision, Machine Learning, Collaboration with AI Research and Engineering, Human–AI Multimodal Interaction Design, VLM, Subagent, RAG

Design Skills
User Interface Design, Information Architecture, Wireframes, Prototyping, Design System, Motion Design, Visual Design, User Flow, Product Thinking, Mobile Application Design, Responsive Web Design, Data Visualization, User Experience Design, High-fidelity Prototyping, SaaS Product Design, Information Architecture, Accessibility Design, UIUX Design, Website Design, Frontend Design, Full-stack engineering

Research Skills
User Interview, User Research, Heuristic Evaluation, Usability Testing, A/B testing, Competitor Analysis, User Journey Mapping, User Persona, Survey, Empathy Map, Card Sorting, Data Analysis, Storyboarding, Quantitative Research, Qualitative Research, Journey Map, User Flow, Marketing Research, User Survey, Affinity Mapping, WCAG Testing, Coding

Tools
Claude, Cursor, N8N, Figma (Auto Layout, Prototyping, Figma Make), Vercel, Supabase, Adobe Creative Suite, Framer, Webflow, Github, Linear, Touchdesigner, Sketch, Unity, Lovable, Python, HTML, CSS, Javascript, React, Json, TypeScript, IDEs, Linear, Next.js, Tailwind
